

# 2019 Union Pacific Transcaer Training Event

## LOCATION

Scale House  
Port of Brownsville  
1801 Foust Rd  
Brownsville, TX 78521

The Cameron County LEPC is hosting a Union Pacific - TRANSCAER Railcar Emergency Response training event. This training event provides unique insights into best management practices in railroad emergencies and provides first responders with the experience needed to safely respond to and work in today's complex world of hazmat rail emergencies.

## Register HERE

### Dates of Class

**Class 1** - Nov 12

**Class 2** - Nov 13

**Class 3** - Nov 14

**Chlorine Emergencies** — This year's training will include Specialist discussing inhalation hazard emergencies and proper mitigation techniques. Industrial responders are encouraged to attend.

Participants will learn how to identify railcars, railcar anatomy and how to mitigate railcar incidents including chlorine leaks. This is more than a lecture based class, you will get hands on training from some of the best in the profession.

Concepts that will be covered:

Please **click** one of the class opportunities above to register.

- Chlorine: Properties, Facilities, Incidents, Mitigation
- Mitigation: From a contractors perspective
- Initial duties upon arriving on scene; train lists and RR emergency contact
- Safety when responding/general railroad safety
- Recovery procedures and site remediation

- **This one day course is free to all participants**
- **Class will run from 9-4 with a (personal) break for lunch at noon**
- **Gloves, hard hat, safety toed boots and eye protection are required**
- **Each class has 70 openings on a first come basis**
