RSVP: Scott Karcher Manager of Hazardous Materials email: [scott\\_karcher@csx.com](mailto:scott_karcher@csx.com) or phone: 734-732-3710 or Region 5 Hazardous Materials Specialist Kristol Ward email: [KWard@MarionHealth.org](mailto:KWard@MarionHealth.org) phone: 317-221-3198

Seats are limited to 30 persons per class. Non-Fire Department and Non-First Responder personnel training will take place April 27<sup>th</sup> and April 28<sup>th</sup> only. April 29<sup>th</sup> through May 1<sup>st</sup> are designated Fire Department and First Responder personnel only.

Upon completion of this course, participants should achieve the following goals:

- Familiarization with rail operations in the community.
- Knowledge of safe job procedures in a rail environment.
- Know how to identify ownership of tracks at grade crossing locations, and have the ability to contact appropriate CSX emergency personnel.
- Identify key railroad personnel at an incident scene, and incorporate them into the incident command structure.
- Have the ability to accurately read train consist information to identify potential hazardous materials involved.
- Be able to identify tracks that have “blue flag” protection applied for the safety of emergency personnel.
- Describe safe practices used in working on and around rail equipment.
- Successfully identify different types of rail equipment

# CSX Safety Train and Emergency Response to Railroad Incident Training

- Differentiate between general service and high pressure tank car, and demonstrate knowledge of various valves and safety relief devices.
- Have skills necessary to perform an emergency shutdown of an operating locomotive.
