Prerequisites:

- Participants shall be trained to the Hazardous Material Technician Level prior to enrollment.
- Activities conducted address the use of offensive measures to a hazardous materials incident and prior experience is preferred.
- Participants are also expected to have completed incident management courses IS100B, IS200, and IS700 prior to enrollment.

PPE REQUIREMENTS:

Closed-toe footwear, gloves, and long pants are required.

Safety vests will be provided onsite.

Hard hats and safety glasses are optional but recommended.
